Section 1: System Prerequisites 4

Introduction:

The eProcurement system is customized as per BHAVINI's requirements. For the system to work properly, there are certain prerequisites with which the eProcurement system will work efficiently.

System requirements are given in the below section.

Section 1: System Prerequisites

The prerequisites are as follows:

I. Software

1. Operating System should be Windows 7 (Professional or Ultimate) or higher version
2. Mozilla Firefox (latest) and Google Chrome
3. Java (Updated Version)
4. Digital Certificate setup (NxtCryptoSetup.msi) installed by Administrators User.
5. Nexcrypto Service Setup.

II. Digital Certificate

For performing activities on BHAVINI's eProcurement portal, class II and above (organization) Digital Certificates having Encryption & Signing DSCs (two DSCs) are mandatory.

III. Hardware

1. Intel Processor i3 or above
2. 1 GB RAM
3. At least 10GB hard disk

IV. Internet

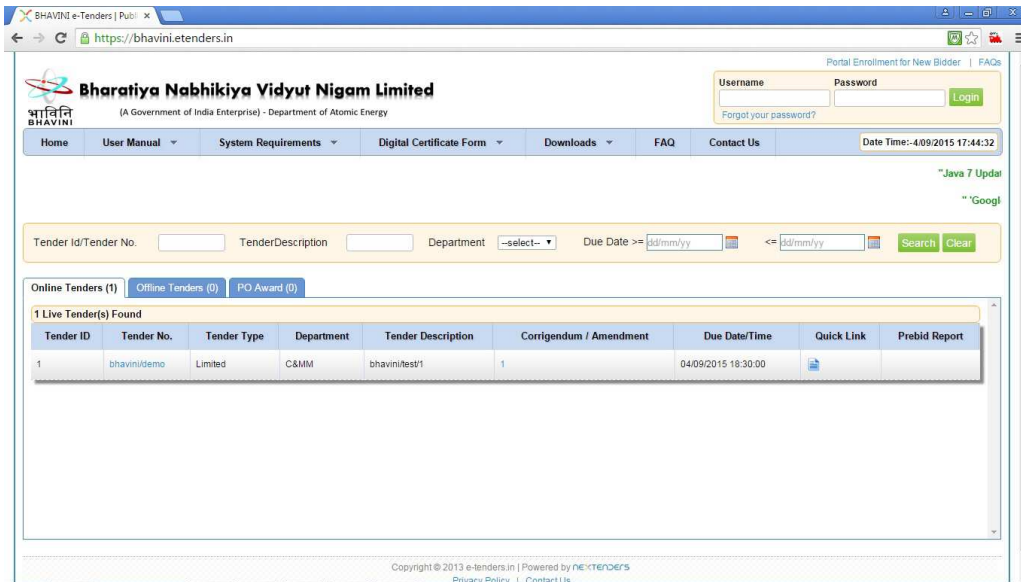

1:1 Internet Speed of 1 Mbps or above speed

V. Java Settings

Scroll down to medium by clicking on Control Panel -> Right click on Java -> select Open -> Click on Security tab -> Scroll down to medium.

Click on "**Restore Security Prompts**" button in Security tab and then press "**Restore All**" button.

Once the above pre-requisites are configured / available in the system, user can click on <https://bhavini.etenders.in> and the eProcurement portal will be available as per the screen given below:
